

FUEL SUPPLY

**PROTECT
YOUR ASSETS**

CASE STUDY

THE CHALLENGE

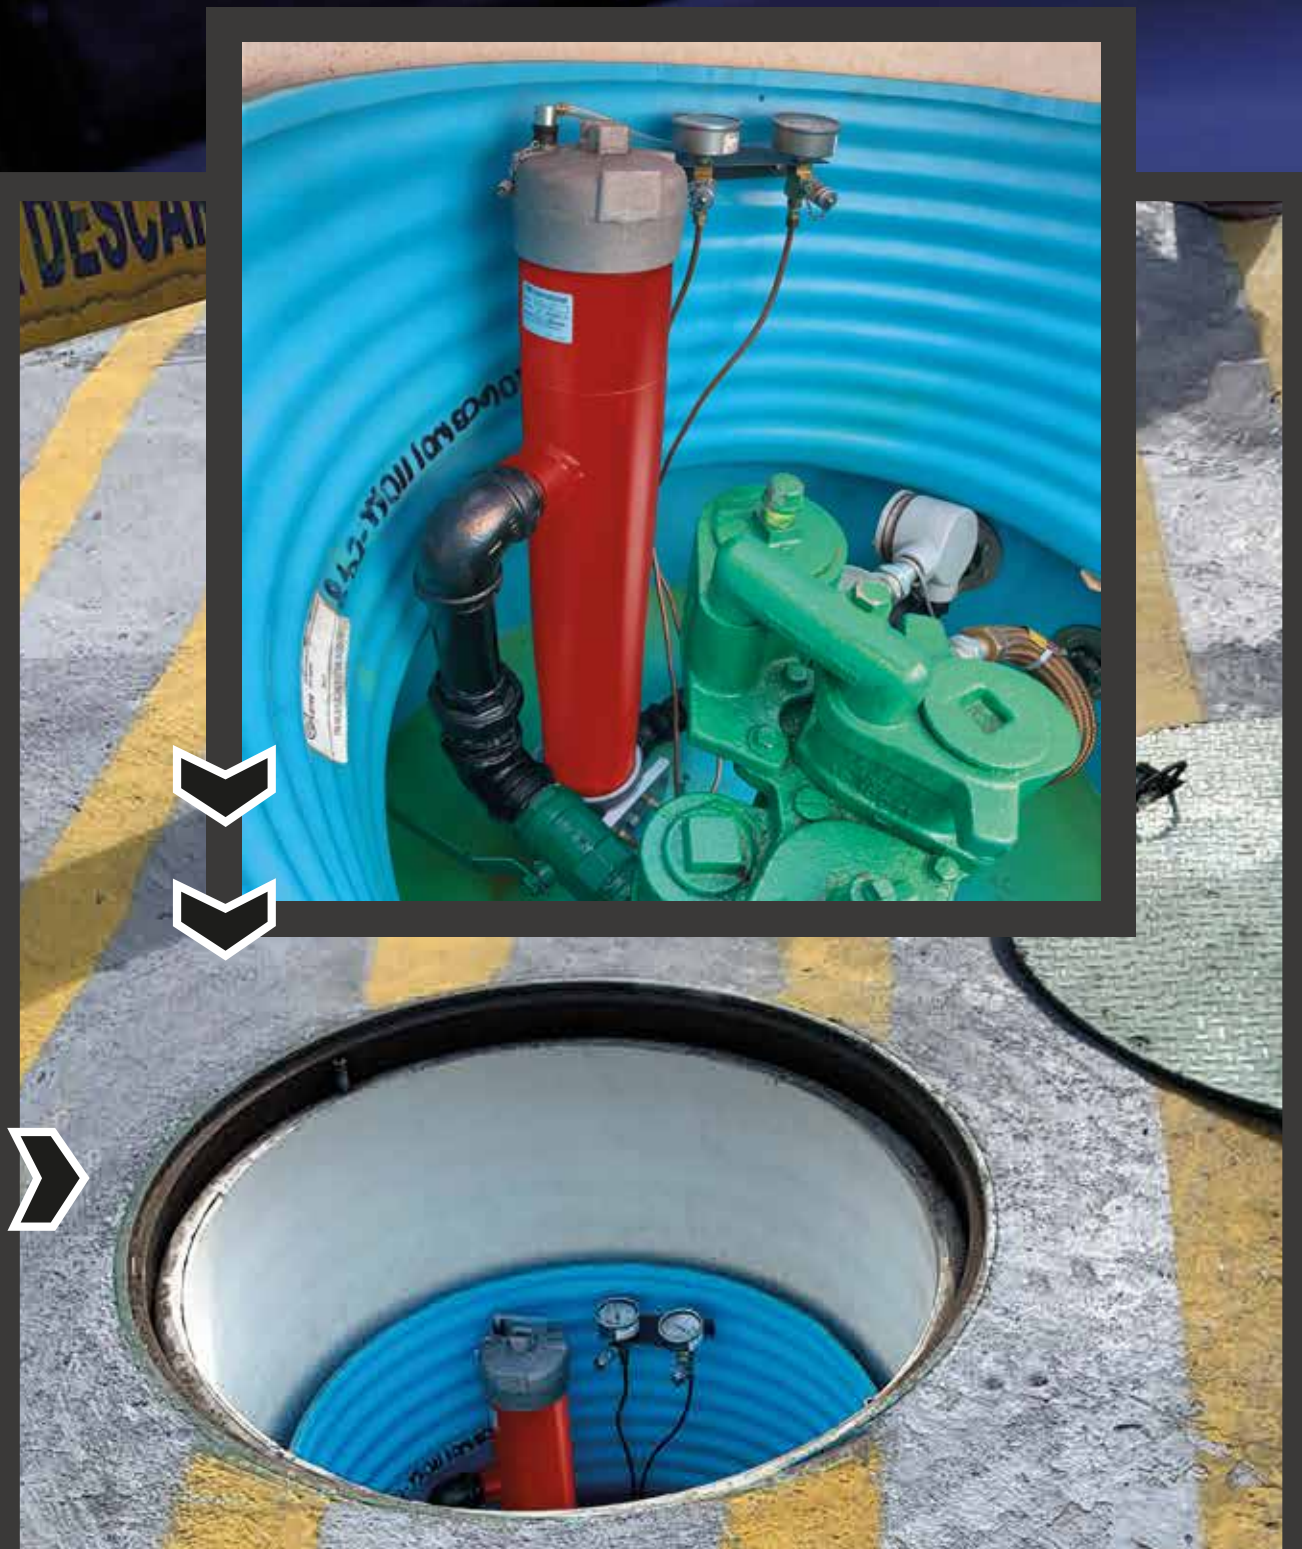

- 
- Fuel with high levels of contaminant particles.
 - Contamination in tanks and supply lines.
 - High maintenance costs and frequent equipment failures.
 - Risk of claims due to contaminated fuel.

THE SOLUTION

Shield filters at diesel reception and dispatch, fully controlling particle contamination.

RESULT: Ultra clean and dry diesel – ISO 4406: 9/8/7

We entrusted our diesel to the expert consulting firm Técnicas de Filtrado and their FMS systems. Since then, we have been completely satisfied with the service they provide and the quality of the results, which have exceeded our expectations."

José Ruiz,
President, Servicentro La Tica S.A.
